Good morning,

We hope you are doing well.

We are reaching out to you again as we are very pleased to inform you that your project **#PaniPaniRe Campaign** has been selected among many other local citizen projects worldwide! If you believe, as we hope, that your project would benefit from being a **UNESCO GREEN CITIZENS 2020-2021**, our team would be more than happy to include it among the 100 projects presented yearly on the UNESCO dedicated platform <http://www.unescogreencitizens.org>

Video: <https://www.youtube.com/watch?v=MPX3ReBuAIY>

UNESCO GREEN CITIZENS is a global campaign to enhance local initiatives and highlight local environmental citizen-led projects on a global scale. This campaign was founded on the idea that changes in our relationship with the environment will only be achieved through the bringing together of complementary actions and networking of commitments for environmental action.

Your project has been identified by our teams, our UNESCO network, or a friend of **UNESCO GREEN CITIZENS** and meets the three following criteria: duplicable, innovative, and impactful.

To gain a better understanding of **UNESCO GREEN CITIZENS**, please refer to the document attached. If you were to choose to join us, we would invite you to fill in the form below and sign it so we could add your project to the UNESCO Green Citizens platform: <https://formulaireugc.paperform.co/>

Please return the completed form as soon as you can, and feel free to ask us if you have any questions or require any further information, and please send us **videos in high definition** for our social network.

Once we receive your completed paperform, we will share our communication kit with you to help you share this good news with your respective networks.

On our end, we will continue to improve the platform by inviting the appropriate, interested public to discover the different featured projects and support you, as a project owner, as we can.

We look forward to hearing from you.

Sincerely,

Ania Nguyen
